

Level 3 Diploma in Information and Digital Technologies

Lloyds College Level 3 Diploma in Information and Digital Technologies is a 60-credit Ofqual regulated qualification and is the equivalent level to an A Level or Access to HE qualification. It has been designed for learners who wish to progress to a Bachelor's degree and may not have the traditional entry qualifications usually required.

The qualification aims to provide learners with the underpinning knowledge and understanding of a range of topics within the Information and Digital Technology environment. These topics will allow learners to develop practical and theoretical approaches to solving problems and finding solutions using Information and Digital Technologies.

This course will prepare and equip you for the workplace and can help learner to run own business.
